

SA021 POLE VEHICLE SAFETY

Introduction

This accreditation aims to give learners the knowledge, skills and understanding in the safety checks required on poling vehicles. It introduces learners to the hazards and potential risks involved with pole vehicles and to comply with health and safety legislation. The target audience is aimed at those working on the telecoms network including suppliers and contractors.

Purpose

Prepare for further learning or training and/or develop knowledge and/or skills in a subject area

Accreditation

Industry accreditation

Learning Outcomes

- Know how to carry out poling vehicle safety checks in accordance with relevant health and safety legislation and company policies
- Be able to undertake pre- and post-operational poling vehicle safety checks
- Know how to carry out operator checks to ensure vehicle mounted cranes used for erecting wooden poles is safe to use.
- Know the banksman (signaller) signs to direct the driver's operations.
- Be able to carry out Banksman (signaller) signs to direct a driver in charge of a vehicle

Pre- requisite

This accreditation is available to anyone over the age of 21 who is capable of reaching the required standard. There are no barriers that restrict access or progression thereby promoting equal opportunity. It is expected however that learners will have a level of literacy adequate to cope with the assessment.

Expectations at level 2

Achievement reflects ability to select and use relevant knowledge, ideas, skills and procedures to complete well-defined tasks and address straightforward problems. It includes taking responsibility for completing tasks and procedures and exercising autonomy and judgement subject to overall direction or guidance.

Grading

Pass
