

O5 REINSTATEMENT IN COLD-LAY BITUMINOUS MATERIALS

STREET WORKS OPERATIVE

Introduction

This qualification provides learners with the knowledge and skills required to safely and competently undertake Reinstatement in cold-lay bituminous materials.

Certification

Upon successful completion, learners will receive a certificate for Reinstatement in cold-lay bituminous materials.

Accreditation

Certification by Smart Awards and Street Works card issued by SWQR.

Delivery

Under the New Roads and Street Works Act 1991 (NRSWA), a qualified operative must be present on site at all times while street works are being carried out. The qualifications held by the operative must be relevant and appropriate to the work being undertaken.

Smart Awards will contact SWQR to confirm that the learner has achieved certification and provide the date the certificate was issued. SWQR will then record the qualification on the Street Works Register and issue a Street Works card.

Each qualification listed on the card remains valid for five years from the certification date, which is the date Smart Awards issued the certificate.
